Full Declining Cities

Elihu only · As of November 6, 2026 ET · USD

Snapshot November 6, 2026 ET. Sales are USD billed invoice line totals Jan 1–Nov 6, not cash collections. Compare complete May–July against August–October (3 months each); November is excluded from trends. Lapsed: no order for 60+ days, among clients ordering in 2026. Classification precedence: Lapsed, then first-2026-order Aug 1+ New, then Down/Up, else Flat. Down requires rounded change <= -25% and negative regression slope over complete months since first order (minimum 3 months). Unknown cities omitted only from city ranking. Full qualifying populations, not top-seven/top-ten lists. Client means billing label, not verified unique physical store. No extra contact information included.

Signed change is Aug–Oct minus May–Jul; negative is decline, positive is growth. Lapse is inactivity, not necessarily a financial decline. Percent is not applicable for zero baseline. Monthly averages equal each three-month total divided by 3, including zero months.
